

# SHORT COURSE ON OFFER

## UNAM Cisco Academy

### Department of Computing, Mathematical and Statistical Sciences

#### CyberOps Associate

In this course, you will learn security concepts, security monitoring, host-based analysis, network intrusion analysis, and security policies procedures.

**Mode:** Face-to-face

**Preparation:** Introduction to Cybersecurity or Cybersecurity Essentials

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** N\$500 UNAM Students | N\$3500 Other Participants

#### CCNA: Introduction to Networks

This course introduces architectures, models, protocols, and networking elements and functions needed to support the operations of a small to big organization.

**Mode:** Face-to-face

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** N\$500 UNAM Students | N\$3500 Other Participants

#### CCNA: Switching, Routing, and Wireless Essentials

This course focuses on switching technologies and router operations that support small-to-medium business networks, including wireless local area networks (WLAN) and security concepts.

**Mode:** Face-to-face

**Preparation:** CCNA: Introduction to Networks

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** N\$500 UNAM Students | N\$3500 Other Participants

#### CCNA: Enterprise Networking, Security, and Automation

This course describes the architectures and considerations for designing, securing, operating, and troubleshooting enterprise networks.

**Mode:** Face-to-face

**Preparation:** CCNA: Switching, Routing, and Wireless Essentials

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** N\$500 UNAM Students | N\$3500 Other Participants

#### IT Essentials

In this course, you will learn how to apply skills and procedures to install, configure, and troubleshoot computers, mobile devices, and software. Prepare for CompTIA A+ Certification

**Mode:** Face-to-Face

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** N\$500 UNAM Students | N\$3500 Other Participants

#### Programming Essentials in Python

Python is a multi-paradigm programming language used by start-ups and tech giants like Google, Facebook, Netflix, and more. With intuitive, readable syntax, Python is a great first programming language to learn.

**Mode:** Online self-paced

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** Free UNAM Students

#### JavaScript Essentials 1 (JSE)

Learn how interactive web and mobile apps are created with JavaScript – and learn to program your own! JavaScript is a text-based programming language, and this course is a great place to start learning programming.

**Mode:** Online self-paced

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** Free UNAM Students

#### Programming Essentials in C++

As one of the most popular programming languages, C++ is hailed for its efficiency and its ease for developing games, real-time systems, and applications with graphical libraries. Take the course to learn the basics of programming in the C++ language, and the fundamental notions and techniques it uses.

**Mode:** Online self-paced

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** Free UNAM Students

#### Programming Essentials in C

The ever-popular C programming language is considered one of the best “first” languages to learn. It’s proven itself for more than 40 years as the absolute essential for entry-level and software development jobs. Known for building operating systems and tens of thousands of applications, it continues to earn new devotees due to its fast and portable nature.

**Mode:** Online self-paced

**Duration:** 70 Hours

**Start Date:** 25 September 2023

**Cost:** Free UNAM Students
