

## 3-DAY SHORT COURSE TABLETS AND TABLETING

**Date:** 07 - 09 July 2025

**Target participants:** Pharmacists, Pharmaceutical Technicians,  
Pharmacists' Assistants, members of the public.

**Course content:** The purpose of this short course is to impart knowledge, competences and skills to professional personnel, relevant to the practice of pharmacy in fourth industrial revolution (4IR), as well as to members of the community who have interest in the development of their herbal remedies through extemporaneous compounding into tablets. Specifically, the course will explore elements, principles, equipment and techniques that are involved in conventional tablet dosage form design and compounding, turning raw materials into tablets. This could be handy in participant's own research to develop their own products for marketing which could promote innovation in Namibia.

**Registration fee:** N\$ 4,070.00

**Payment details:** Registration fee to be paid by 30 June 2025
