

UNIVERSITY OF NAMIBIA

New Professional Speciality Programme 2027

Do a Master of Medicine degree in > Internal Medicine (MMED)

Are you ready to move beyond general practice and become the definitive authority in adult medicine? Apply to study for a **Master of Medicine in Internal Medicine (MMed)** with us.

In a world of complex pathologies and evolving healthcare demands, the need for exceptional internists has never been greater. The Master of Medicine in Internal Medicine at the University of Namibia is not just a qualification; it is a transformative journey designed to forge the next generation of clinical leaders.

This rigorous, four-year full-time program is your gateway to mastering the art and science of diagnosing and managing a vast spectrum of diseases. Here, you don't just learn medicine; you redefine it.

What You Will Conquer

- Our curriculum is built on the pillars of excellence, producing graduates who are
- Clinical Experts: Masters of diagnostic reasoning and patient management.
- Critical Thinkers & Problem-Solvers: Navigating complex, multi-morbid conditions with precision.
- Leaders & Managers: Ready to steer healthcare teams and departments with confidence.
- Ethical Practitioners: Committed to the highest standards of patient care and professionalism.
- Health Promoters & Educators: Shaping the future of healthcare through teaching and advocacy.

Your Future: A World of Opportunity

Upon graduation, you will not just be looking for a job; you will be choosing from a vast landscape of career possibilities. Our graduates are highly sought after in:

- **Leading Hospitals & Tertiary Centers:** As Senior Physicians and Heads of Units.
- **Private Practice:** Establishing lucrative specialist consultancies.
- **Academia:** Shaping the minds of tomorrow as University Lecturers and Researchers.
- **Public Health Leadership:** Driving health policy and population health strategies.

- **Global Health Organizations:** Contributing to international medical missions and NGOs.
- **Medical Research:** Pioneering new treatments and clinical trials.
- This degree is your passport to influence healthcare at the highest level.

Are You the Right Candidate?

This program is for the dedicated and ambitious medical professional. To be eligible, you must hold:

- An MBChB, MBBS, MD or equivalent NQF Level 8 qualification from a recognized university.
- NQA evaluation for all foreign qualifications
- Valid HPCNA registration (or qualification eligible for registration).
- A minimum of three years of full-time clinical practice post-internship.
- A passion for Internal Medicine (previous attachment is a strong advantage).

Required Documents:

- 2 Recommendation Letters (1 from a supervisor in Internal Medicine).
- Updated CV & Personal Motivation Letter.
- NQA Evaluation (for foreign qualifications).
- Proof of full-time sponsorship for the 4-year duration.
