

# Student Notice: Work Readiness Programme

24 February 2022

**Dear final year students,**

Kindly be informed that due to technical difficulties experienced on the UNAM IT Systems, all final year students will not be able to select and register online for the Work Readiness Programme (WRP) in the present circumstances.

As a result of this challenge, the Centre for Innovation in Learning and Teaching in collaboration with the Office of the Registrar will manually and individually (student by student) register all final year students on this programme.

**Please note that this process is expected to be completed by Monday, 07 March 2022. Students will be notified when they have been registered for the programme and can commence with the online WRP learning activities.**

We ask that students bear with us as we strive to ensure that all students are linked to the programme.
