IUPAC – Global Women Breakfast background

The Global Women Breakfast (GWB) is an annual global event organised by the International Union of Pure and Allied Chemistry (IUPAC) to commemorate the Women and Girls in Science Day – 16 February.

This event, held in conjunction with the United Nations, aims to shine a light on the accomplishments of Women in Science, and provide a platform for women and men to network and share solutions to narrow the gender gap in science. Since its inception, IUPAC has facilitated the formation of more than 300 event in different local, regional, and international communities.

Be a part of our celebration this year: **Women and Girls in Science, Namibia**

The University of Namibia is excited to announce that it will be hosting a local breakfast, under the facilitation of IUPAC, to celebrate the outstanding performance of Namibian women in science.

The breakfast will take place under the theme: Empowering Diversity in Science with the speakers:
